

Ring Size Guide

Print this page, ensuring that page scaling is set to none or 100% in the print dialog box. Measure the bar on the right, it must be exactly 30 mm long.

Whether you are buying the ring for someone else or yourself, we realise that you may not know which ring size to purchase. To help you, we've prepared a simple guide to determine which ring size will fit your finger.

Whichever method you choose, there are a few basic guidelines to ensure an accurate measure:

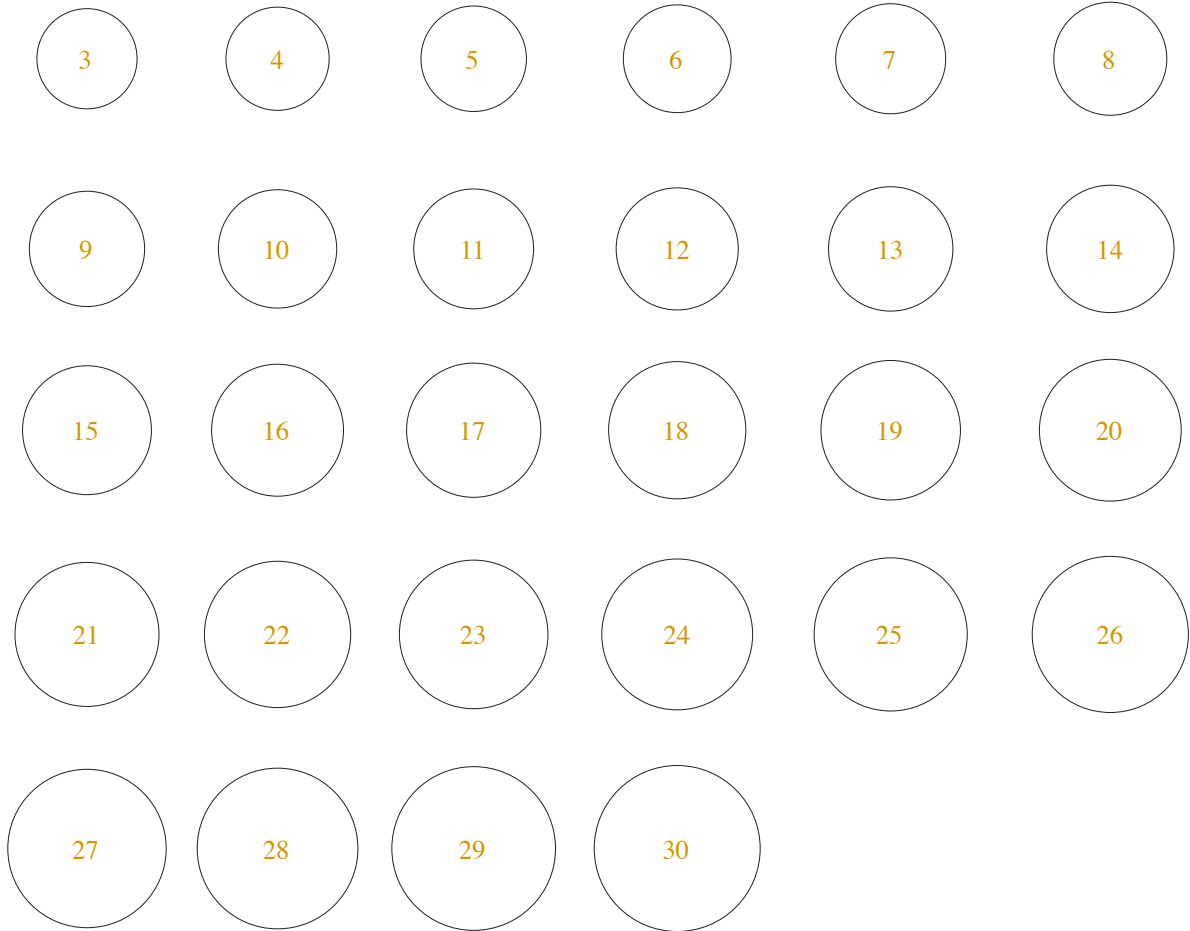

- Your ring should fit your finger comfortably: snug enough so that it will not fall off, but loose enough to slide over your knuckle.
- Measure finger size several times a day to eliminate an erroneous reading. Finger size changes depending on time of the day and weather.

Measure an existing ring

1. Select a ring that properly fits the intended finger.
2. Position the ring over the circles below, lining up the inside edge of the ring with the circle nearest in size. This measurement refers to AEYKO (Italian) ring size of the ring.
3. If your size is between two sizes, opt for the larger of the two.
